DATE
11 June 2026

SUBJECT
Final AERMOD Protocol & Part 212 Analysis and
AERMOD Air Dispersion Modeling Report; The
Goodyear Tire & Rubber Company, Niagara Falls, NY
Air State Facility Permit Renewal
DEC ID No. 9-2911-00036

Transmitted via electronic mail delivery
lisa.czechowicz@dec.ny.gov

REFERENCE
0771139

Dear Ms. Czechowicz:

On behalf of The Goodyear Tire & Rubber Company (“Goodyear”), ERM Consulting & Engineering, inc. (“ERM”) is submitting the Final AERMOD Protocol & Part 212 Analysis (the “Protocol”) and the Final AERMOD Dispersion Modeling Report (the “Report”) for Goodyear’s Niagara Falls, New York manufacturing facility (the “Facility”). The Protocol and the Report have incorporated the comments received from the New York State Department of Environmental Conservation (“NYSDEC” or the “Department”) and conditional approval of the Protocol in NYSDCE’s letter, dated May 6, 2026. Please note that the modeling archive will be issued under separate transmittal directly to the Department’s Air Quality Planning & Assessment Team for their use.

These documents will be uploaded to Goodyear’s dedicated webpage (as the electronic document repository) for the Air State Facility (ASF) Permit modification and renewal action. In addition, and in accordance with Goodyear’s enhanced Public Participation Plan, a “hardcopy” of these documents will be delivered to the LaSalle Branch of the Niagara Falls Public Library that serves as an additional repository for public review.

If you have any questions concerning these documents, please contact Goodyear’s Daniel Planter by telephone at (716) 236-2651, or via email at daniel.planter@goodyear.com, Mr. Charlie Mingo at (409) 719-2303 or via email at charlie.mingo@goodyear.com, or me at (585) 387-0510 or via email at david.murtha@erm.com.

Sincerely,

David T. Murtha, QEP, CVI, TWIC
Consulting Director
